COMMON THEMES

- right-hand bat, averaging 26.9 at a strike rate of 45.5.
- Carries a big share of the batting — 11.1% of team runs.
- Scores mainly through the off side (47%).

STRENGTHS

- Main scoring shot is the drive (43% of runs).
- The **cut** brings them 14% of their runs — 1.7× the typical Test batter's share. Scores unusually little off the **sweep** (2% of runs vs 7% typically).
- Stronger against spin (39) than pace (21); pace — especially the quicks — is the more productive line of attack.

WEAKNESSES / HOW TO GET HIM

- Get them early** — they're 1.8× more likely to fall in their first 30 balls (2.4 vs 1.3 dismissals/100 once set; false shot 19% vs 11%). Early runs come mainly off the work/nudge (44%).
- Most often out **caught** (76% of dismissals); most often to right fast (24).
- Vulnerable to the **good length** (averages 12 there vs 27 overall; 2.5 dismissals/100).
- Struggles **in the channel** (14 avg, 3.4 outs/100).
- The ball that seams away hurts them (avg 13 vs 38 when it holds its line).
- Most dangerous ball: **good length in the channel** (5.3 dismissals/100, avg 8).
- His **cut** is high-risk (false shot 35%, 2.2 outs/100).

Our Best Options (simulated matchups)

From the match simulation — a tool that plays each batter-v-bowler pairing out thousands of times from their full Test profiles. Low expected average = the bowler wins the matchup. "Cohort" confidence = they have not faced enough of that type for a personal read.

Suggested Fields (the stock field ± their evidenced deviations)

Each field starts from the **stock template** for that bowler type & phase (orthodox because it works), then makes at most **three** changes — each one earned by a trigger in **their** game clearing the cohort P75 bar (do they lap, cut, pull, score square, edge early?). **Change** rows are highlighted with their stat; **Stock** rows carry the orthodoxy line. The read line backtests the changes against the pure stock field. Early = first 30 balls; Set = once in. Drawn from behind the bowler (bowler bottom, striker top); off side is on the left.
